FRM INC. .COM

FRM is excited to offer American Polymer Company products to their Florida customers. The American Polymer team has a combined 50+ years experience in both polymer and traditional concrete manufacturing, with a focus on materials science and process technologies. American Polymer Company serves the electrical, utility, and telecommunications markets in North America and the Caribbean. They take pride in having some of the shortest lead times in the industry and can ship most orders out same or next day. All of the manufacturing is done in South Florida.

To learn more about the available products, please contact your Florida FRM Sales Rep or visit:

Featured Product

The GlobalLux IHB™ Series Slim Linear High Bay delivers industry-leading performance with an extremely attractive ROI. Superior performance, ultra high-efficacy and premium quality provides an economic solution for high ceiling applications, especially warehouse spaces. Delivering high output, quality light and low energy consumption can improve warehouse safety and productivity, lower maintenance cost and reduce operating costs. The IHB series provides high output illumination for various commercial industrial applications with high ceilings.

Tuesday Tip

Peak Atlantic #hurricane season runs through late October. To prepare for #storms and #hurricanes, charge communications devices, unplug electronics and move them as high as possible. Do not use electrical equipment that has been submerged in water. #ESFI

Welcome to the Team!

Allee Williams

We are excited to welcome Allee Williams to the FRM Energy Team! Allee worked for five years with Southwire as a Technical Engineer supporting the sales team and customers. Then she spent time as an account executive for a software company. Allee will be calling on utilities in North and South Carolina. We are excited to have her experience and technical product knowledge supporting our utility customers in NC and SC. Welcome to the FRM team Allee!
